

E-mail Received August 10, 2021

Subject: Written Testimony

Sandy,

I am writing to you today because I would like my message submitted to all Working Group members as written testimony. I feel that child care workers are true heroes during this pandemic. They are on the front lines working with young children, who because of their age, cannot be vaccinated. It was (and is) essential for child care centers to stay open in order to take care of the children whose parents were also on the frontlines. In our line of work we are not able to social distance and child care workers have been spending more than 10 hours a day in classrooms with children who are not able to be vaccinated. I believe that child care providers should be included in the Frontline Pay Fund. Thank you for taking the time to read my e-mail and submit it to the members of the Working Group.

Sincerely,

Cheryl Amundson

Director
