

## Investments in our Competitiveness

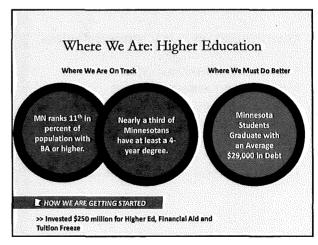

- Minnesota Investment Fund \$30m
- Minnesota Job Creation Fund \$24m
- Minnesota Global Competitiveness Initiative \$1.5m
- Community Redevelopment \$6m
- Adult Workforce Competitive Grant Program \$3.3m
- Youth Workforce Competitive Grant Program \$5.7m
- Minnesota FastTRAC Adult Career Pathways \$3m

## Educating a World-Class Workforce

Jobs and investment follow talent. Minnesota has historically had one of the best educated and most innovative workforces. That starts with ensuring Minnesota Kids and their families have access to a world-class education. Governor Dayton and this Legislature has:

Made all-day kindergarten a reality for every Minnesota child – <u>saving</u> families \$2,500 a year.

Provided \$606 million to E-12 schools to make sure communities have the tools they need to keep class sizes small, lower property taxes, and ensure every Minnesota get gets a world-class education that prepares them to compete in a 21st century economy.

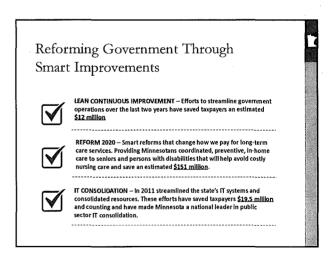

Invested in early learning to narrow the achievement gap, lay the foundation for success, and deliver a 16:1 return on investment for taxpayers.

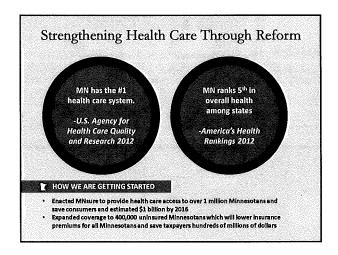

Delivered the largest financial aid increase in a generation that will help 100,000 students and middle-class families pay for college and froze tuition at state colleges and universities.

So Employment, Unemployment, Vacancies and Layoffs Are At (Or Near) Pre-Recessionary Levels

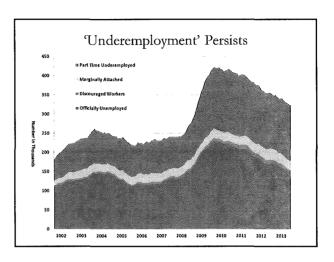

But Top-Level Numbers Conceal Some Persistent Underlying Concerns

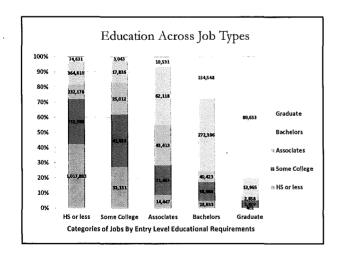

- Long Term Unemployment Persist
- Demographic Disparities
- Substantial Underemployment

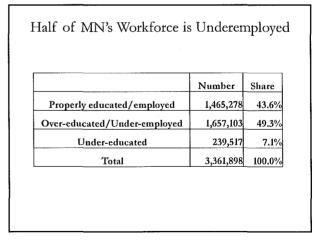

## In Review ....

- By many measures our labor markets have fully recovered from the 'Great Recession'
- But some groups continue to face extreme challenges, including (but not limited to) the long term unemployed, youth, racial minorities and many with post-secondary education.
- Regaining a 'full' utilization of our labor resources and human capital will take much longer than returning to pre-recessionary levels of employment and unemployment.
