

Metropolitan Governance public participation proposed ideas:

- 1) Include opportunity for public testimony at end of every agenda of regular meetings of the Task Force. Request, but don't require, sign up ahead of time. (Testimony can be limited to a set number of minutes per person.)
- 2) Create a webform and/or e-mail for written public testimony and input at Task Force site.
- 3) Ensure all committee information, minutes, presentation materials, documents and presentations are posted online.
- 4) Broadly publicize existence of the Task Force with an invitation for public to testify and provide input. Ensure outreach to an array of communities and stakeholders, especially POCI communities and organizations.
- 5) Hold minimum of three meetings in the community, with at least two of them in the evening. Ensure sufficient notice and outreach to an array of communities and stakeholders, especially POCI communities and organizations.
- 6) Ensure sufficient opportunity and access for review, written and in person comment on the draft report prior to finalizing and transmitting.
